

SURRY SCHOOL DISTRICT POLICY

SECTION C: GENERAL SCHOOL ADMINISTRATION

Section C contains policies on school management, administrative organization, and school building and department administration.

The Surry School Board does not operate any schools and is recognized as a sending district. Therefore, the Surry School Board recognizes and incorporates by reference the policies and procedures in general school administration applicable to students and parents/guardians of students attending the receiving school district and adopted by the receiving school boards in the school districts where Surry resident students attend school.

The policies adopted by the school board in this section are related to the organization and management of the Surry School District.

Questions about the receiving district's policies and procedures should be addressed first to administrators at the receiving district.
