

SURRY SCHOOL DISTRICT POLICY

SECTION E: SUPPORT SERVICES

Section E contains policies on district support services such as safety, building and grounds management, office services, transportation, food services, and other non-instructional services. The Surry School Board does not operate any schools and is recognized as a sending district. Therefore, the Surry School Board recognizes and incorporates by reference support services policies applicable to students and parents/guardians of students attending the receiving school district and adopted by the receiving school boards in the school districts where Surry resident students attend school.

The following Section E policies are related to the operation and management of the Surry School District.

Questions about the receiving district's policies and procedures should be addressed first to administrators at the receiving district.
